5/30/2022	21:17:26	Joshua Dentrinos	ISRA/Traders Global Group	can you see this on any other companies feeds?	ISRA/Traders Global Group
5/30/2022	21:18:09	Joshua Dentrinos	ISRA/Traders Global Group	people are saying only we have this spike	ISRA/Traders Global Group

5/30/2022	21:20:40	Joshua Dentrinos	ISRA/Traders Global Group	this is ic markets	ISRA/Traders Global Group
5/30/2022	21:23:50	Patrick Powers	ISRA/Traders Global Group	NZD has an early roll (19:00 utc) so spreads widen out significantly around that time as LPs adjust their systems to reflect the new value date. Most legitimate providers will have settings in place to filter the wide prices, but looks like CDO doesn't filter the prices. IS Prime has detailed filtration settings in place so the majority of our clients do not have a price spike	ISRA/Traders Global Group
5/30/2022	21:24:45	Patrick Powers	ISRA/Traders Global Group	The spike was probably more severe today due to the US holiday	ISRA/Traders Global Group
5/30/2022	21:24:56	Joshua Dentrinos	ISRA/Traders Global Group	i dont know how to handle this	ISRA/Traders Global Group
5/30/2022	21:25:04	Joshua Dentrinos	ISRA/Traders Global Group	its affected a lot of our customers	ISRA/Traders Global Group
5/30/2022	21:25:12	Joshua Dentrinos	ISRA/Traders Global Group	is the spike legitimate ?	ISRA/Traders Global Group
5/30/2022	21:25:18	Joshua Dentrinos	ISRA/Traders Global Group	can you compare to your internal feeds?	ISRA/Traders Global Group
5/30/2022	21:28:32	Patrick Powers	ISRA/Traders Global Group	We'll check. This happens frequently on NZD so I would say that the price was legit, but in reality, it should be filtered since spreads tend to come back in within 30 seconds after the roll<e_m a="live:.cid.5fe9685370270486" ts_ms="1653942511757" ts="1653942511" t="61"></e_m>	ISRA/Traders Global Group
5/30/2022	21:28:47	Joshua Dentrinos	ISRA/Traders Global Group	are we able to apply a filter?	ISRA/Traders Global Group
5/30/2022	21:35:16	Matthew Chichester	ISRA/Traders Global Group	It looks like it was 4 ticks that were wide from CDO. We can set a 20 pip filter for 5 ticks and that should prevent a similar spike moving forward from coming through. I checked some other non-ISP tick data and there were similar spread blowouts but not nearly as wide	ISRA/Traders Global Group
5/30/2022	21:35:39	Joshua Dentrinos	ISRA/Traders Global Group	right so they went wider	ISRA/Traders Global Group
5/30/2022	21:35:56	Joshua Dentrinos	ISRA/Traders Global Group	ok, I have to evaluate the damage some how, I am going to assume its big but we will have to do something to rectify it some how by refunding the trades.	ISRA/Traders Global Group
5/30/2022	21:36:01	Joshua Dentrinos	ISRA/Traders Global Group	Any assistance would be appreciated.	ISRA/Traders Global Group
5/30/2022	21:36:39	Matthew Chichester	ISRA/Traders Global Group	I can run a quick query and check for trades closed during this time period. One moment	ISRA/Traders Global Group
5/30/2022	21:36:45	Joshua Dentrinos	ISRA/Traders Global Group	thanks	ISRA/Traders Global Group
5/30/2022	21:42:12	Matthew Chichester	ISRA/Traders Global Group	on the live mt4 server, I'm not seeing a large impact. The offer price dropped slightly as well, so it's actually mostly clients making money off of it, although they were small small orders and small profits.	ISRA/Traders Global Group
